

# Suncoast Woodcrafters Guild Virtual Library

The Suncoast Woodcrafters Guild maintains a virtual library for use by its members. If you have a book that you feel other members may benefit from viewing, you are invited to post the Titles, Authors and Date of publication of the books in the Virtual Library. Posting can be by email to [statnyk@dccnet.com](mailto:statnyk@dccnet.com) or by submitting to the Library Committee at one of our regular monthly meetings.

Members wishing to borrow a book should note the tracer code of the book and then consult their membership list to identify the owner and their contact details. The tracer code can be found to the right of the book description and author information. Direct contact between the owner and borrower will then be possible.
